This handbook is intended to give an overview of the 2017 Sapporo Asian Winter Games and provide technical information on each sport as required by the OCA Constitution and Rules. The 8th Sapporo Asian Winter Games Organising Committee (SAWGOC) is currently making necessary preparations for the event, and looks forward to welcoming athletes and officials from all over Asia.
Sapporo is one of the world’s safest, most convenient cosmopolitan cities. Having hosted the Winter Olympic Games and various other international sporting events, the city is seen as a mecca for winter sports. It’s time for athletes in Asia to show everything they have on this incomparable stage. The paths they will take on the snow-covered ground will lead them to success on the world stage.
The 8th Sapporo Asian Winter Games Organising Committee aims to hold the event in urban areas that coexist with the region’s rich natural environment. On this stage, athletes will push themselves beyond their limits in pursuit of their ambitions and make strides toward being world-leaders in their fields. The Committee also views the Games as a way of promoting the potential of Asia to the rest of the world, thereby opening up a new era of winter sports.

Promoting the appeal of winter sports and the rich natural environment that has supported their development, and leaving a legacy for future generations

Welcoming visitors with warm hospitality and running a safe, compact Games with high levels of convenience and environmental sustainability

Bringing together people from across Asia to promote global peace and friendship while encouraging exchanges between people from diverse cultural backgrounds and promoting intercultural understanding
Welcome to the Land of Ice and Snow.

Sapporo is Japan's northernmost ordinance-designated city. It has been known as a city of international tourism since it hosted the Winter Olympics in 1972. It is the cultural, political and economic center of Hokkaido, and is also renowned for its rich natural environment.

Obihiro is a core city located in eastern Hokkaido. Large-scale farming is practiced in this region, which is one of Japan’s main production areas. Obihiro is also known for its speed skating rinks and other well-developed sports facilities that provide locals with ideal opportunities for related activities.

A Word from the Honorary President

Toward the Development of Winter Sports in Asia

In response to Japan’s proposal of the Asian Winter Games (AWG) for the development of winter sports in Asia, the city of Sapporo hosted the first AWG in March 1986 and the second in March 1990.

The cities of Sapporo and Obihiro are now scheduled to host Japan’s fourth AWG after the event was held in Aomori in 2003.

To promote winter sports as well as sporting participation, culture and international goodwill among Asian youths, the 8th Sapporo Asian Winter Games Organising Committee is preparing for the event with Japan’s traditional spirit of hospitality (known in Japanese as omotenashi) based on safe, reliable and environmentally friendly planning for a spectacle that will encourage athletes from across Asia to perform to the best of their abilities.

The event will showcase Japan’s dynamism to Asian countries and regions with focus on Sapporo – a city where people engage in international exchanges, embrace cultures different from their own, and continue to take on new challenges amid Hokkaido’s beautiful natural environment.

The Committee intends to make the 2017 Asian Winter Games a great success that will help to expand winter sport networks in Asia.

The efforts and cooperation of everybody involved in this endeavor are greatly appreciated.

A Word from the President

Making the Games an Outstanding Showcase for the Future

In February 2017, athletes from across Asia will gather in the cities of Sapporo and Obihiro to compete in the exciting Asian Winter Games. I’m truly thrilled that this will be the third time Sapporo has hosted the event in the last 30 years.

Sapporo has hosted numerous international meets in the sporting world, including the Winter Olympic Games and the FIS Nordic World Ski Championships. Based on this experience, the city is forging ahead with preparations for a successful Games in collaboration with the Japanese Olympic Committee (JOC).

The many people who will come to Sapporo and Obihiro from countries and regions across Asia for the event will be welcomed with unrivalled hospitality. This is expected to promote new exchanges as well as highlighting the appeal of the host cities and of Hokkaido as a whole.

All available resources will be used to make the 2017 Sapporo Asian Winter Games an outstanding showcase for the future. The event will provide chances for people to experience the excitement and enjoyment inherent in sports, and will help to give children, in their role as leaders of the future, the aspirations and inspiration needed to inherit this legacy with pride.

The contribution of all involved in these preparations is greatly appreciated.

*As of January 1, 2016*
The 2017 Sapporo Asian Winter Games will be held in the Japanese cities of Sapporo and Obihiro. The Asian Winter Games are an international multi-sport event run by the Olympic Council of Asia (OCA), which has 45 member countries and regions, with the aim of developing winter sports in Asia.

**Official Logo**
The official logo was chosen from among proposals submitted by the Japanese public.

The overall form of the logo represents Hokkaido – the northernmost of Japan’s four main islands – as a whole. It also has design elements echoing the North Star shining in the night sky, a snow crystal and the winter breeze.

The five blue arcs themselves represent the five sports of the Games and the people from the five Asian regions who will assemble in the host cities of Sapporo and Obihiro and work together to ensure the success of the event. They also signify the assembly and collaboration of representatives from the five regions under the OCA symbolized by the sun in the middle.

The arcs also further represent the organizers’ hopes that the influence of this winter sporting event will develop and spread along with Hokkaido’s international profile.

**Official Mascot**
Sporting a red scarf and blue cape, Ezomon is a very special type of flying squirrel that, in Japan, is found only in Hokkaido. Ezomon is a winter sports hero who encourages children to dream big.

The outgoing Ezomon creates excitement for the Games by flying around, wearing the cape with pride!

Accreditation and Validation

Asian Winter Games Identification and Accreditation Cards (AWGIACs) produced by the 8th Sapporo Asian Winter Games Organising Committee (SAWGOC) will be issued to establish identity and give the right of access to specific Games venues and zones so that holders can perform their functions at the 2017 Sapporo Asian Winter Games.

SAWGOC will distribute an Accreditation Package with an Accreditation Guide to each NOCs and Responsible Organization in May 2016.

Pre-valid AWGIACs (PVCs) for approved applicants applying by Monday, September 19, 2016, will be sent to the relevant Responsible Organizations.

PVCs constitute documentation authorizing entry into Japan for overseas delegations along with a valid passport or travel document.

PVC holders are required to visit one of the Validation Counters at the Games official airport or an Accreditation Center and present their PVC along with a valid passport or travel document to have the card validated. Once this process is complete, the card can be used as an AWGIAC.

Immigration and Visas

During the period from Friday, January 20 to Monday, March 13, 2017, PVC holders are permitted multiple entries into Japan without a separate entry visa. Upon entry to Japan, overseas delegations must present a PVC and a valid passport or travel document and submit an Embarkation/ Disembarkation Card.

Delegates who do not have a PVC and who plan to stay in Japan outside the validity period will need to make their own arrangements for entry into Japan in accordance with Japanese immigration law.

Individuals using their PVC as a visa to enter Japan must ensure that their passport is valid after Monday, March 13, 2017 and that the details on the passport match the information provided on the application for accreditation.
